-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1764

Examination of this application reveals that it appears to be drawn to numerous different, distinct, and independent inventions. The groups listed below are illustrative of a number of the inventions present:

- I. Claim 6, drawn to coal drying equipment, classified in class 44, subclass 629.
- II. Claims 9 and 12, drawn to aged reformed coal and a method for aging reformed coal, classified in class 44, subclass 620.
- III. Claims 13-24, drawn to a process for producing reformed coal, classified in class 44, subclass 620.
- IV. Claims 25 and 26, drawn to a system for producing reformed coal, classified in class 44, subclass 629.

The different inventions comprise processes, products and apparatus which are different, distinct, and independent and are capable of supporting their own patent. The different inventions have acquired a separate status in the art and the fields of search are not coextensive. A search for all of the inventions of this application would place an undue burden on the Office.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
